Tour Overview

Tour Overview : of Shey Phoksundo Lake Jeep / Bike + Trek Adventure

This 15 Nights / 16 Days Shey Phoksundo Lake Jeep / Bike + Trek Adventure is designed for travellers who want to reach the Dolpo region by road as much as practically possible and then complete the final protected-area section on foot. It is not a full vehicle tour to the lake. The road journey can reach the Dunai, Juphal or Suligad side depending on current road condition, while the final approach to Chhepka, Ringmo Village and Shey Phoksundo Lake must be completed by trekking.

The journey begins from Kathmandu and follows the southern highway towards Butwal / Bhalubang, Surkhet and Jajarkot before entering the remote Bheri Corridor and Dolpa road section. The road becomes increasingly rough after Jajarkot, with narrow mountain tracks, river-side sections, dust, mud, landslide areas and limited repair facilities.

From Dunai or Suligad, the trek follows the Suli Gad river valley through forests, waterfalls, suspension bridges, remote settlements and gradual climbs to Ringmo Village and the turquoise waters of Shey Phoksundo Lake. This package is ideal for adventurous groups, but clients must understand that the journey involves long riding days, remote roads, basic accommodation and trekking inside a protected national park.

DIFFICULTY EXPLANATION

Road Difficulty Moderate to challenging. The highway section is manageable, but Jajarkot-Dolpa road sections can be rough, narrow, dusty, muddy and landslide-prone.

Trekking Difficulty :Moderate. The trek involves 5-7 hours walking on most days, river valley trails, forest paths, suspension bridges and climbs towards Ringmo / Phoksundo.

Altitude Difficulty : Moderate. The highest overnight is around the Ringmo / Phoksundo area above 3,600m, so slow pace and hydration are important.

Accommodation Difficulty : Basic in Dolpa and trekking sections. Clients should expect simple teahouses, limited rooms and basic toilet facilities.
